Espresso machine Metos Green Plus 2GR Black LED ESM

Metos Green Plus 2GR LED ESM (black) is an automatic espresso machine with modern technology to help and guide the user both in making coffee and in cleaning the appliance. The espresso machine with two coffee groups is ideal for use for example in a small café or hotel. Thanks to the Easy Steam steaming function in the device, the frothing of the milk can be carried out quickly and accurately exactly according to the wishes of the barista. Turning the selector dial up produces continuous steam production. By turning it down, the user can influence the flow rate. Steam flow stops when the dial is released. The automation monitors the functions of the appliance and starts the automatic cleaning every ten doses of coffee. The coffee groups have separate controls, so even if the automatic cleaning for one of the groups is running the coffee production of the other group is not interrupted.

The black side panels, the shiny stainless steel that dominates the front and the white LED lighting of the buttons give the machine a stylish, cool look. The LED lighting of the work area improves work ergonomics and makes the machine stand out from the dark background. An instructive LCD display makes the device easy to use, clean and maintain. The display tells the user the following information: boiler temperature, start settings and weekday settings, number of cups made, water consumption, fault messages, scheduled maintenance, automatic cleanings. In addition, the device has separate gauges for boiler and pump pressures.

- two coffee groups, two steam taps and a

hot water tap
- Easy Steam to speed up milk frothing
- an automatic cleaning function that starts every ten cups
- LED lighting in the work area
- boiler size 11 liters
- black painted side panels
