

# Espresso machine Metos Green Green Club PU-S 1GR Black

Metos Green Club PU 1GR is a semi-automatic espresso machine with manual water filling. The device is designed for applications where there is no possibility of water connection. The built-in water softener reduces the need for descaling and helps keep the coffee taste uniform. Thanks to its compact size and low price, this device with one group is very suitable for a small café or office. The black side panels and the shiny stainless steel that dominates the front give the machine a stylish, cool look.

- with one coffee group, steam tap and hot water tap
- boiler size 4 liters
- the size of a manually filled water tank is 2 liters
- integrated water softener as standard
- black painted side panels
- black ABS plastic corner pieces protect the machine from knocks
- sturdy stainless steel frame
- front panel in mirror-polished stainless steel
- to facilitate maintenance, the technical components are positioned so that they can be exposed by removing the panels from the top and side of the device
- manual cleaning

#### DELIVERY INCLUDES:

- two filter holders, one for two cups and one for one cup

#### ACCESSORIES (to be ordered separately):

- filter holder for POD coffee capsules
- water filter
- barista tool set
- knock-box coffee waste drawer
- espresso bean grinder
