

Rotisserie grill Metos Steambox + display V85LS

Metos Steambox is a compact Rotisserie grill that offers a small and suitable grilling unit for a small space. In this model, the base of the grill is a Metos V85LS heated self-service display with two shelves. Together, the grill and the self-service display form a powerful pair that takes up less than a square meter of floor space, which is suitable for both the grilling of products and the self-service sale of packaged products.

The black outer shell of the Steambox, the glass doors on both sides and the inner wall that stands out in red bring out the products for sale in an attractive way. The grill has four frying baskets and can cook 12 to 16 chickens at a time. Shortcut keys and a large display make using the device quick and easy. The Steambox series grills are reach trough models with glass doors on both sides. The solution makes it easier to load products and to clean the grill. Rotisserie grills are specially designed for in-store use, where cooking takes place near a service counter and the production is on display for customers. The rotisserie grill with its large glasses communicates effectively to customers the possibility of buying a crispy, freshly fried chicken. Metos Steambox grills have an automatic steam cleaning function. The program lasts 15 minutes and also effectively removes stubborn dirt. This, along with quick-release baskets and other parts, speeds up daily cleaning routines.

ROTISSERIE-GRILL METOS STEAMBOX

- rotisserie grill with double doors
- capacity: 12-16 chickens (depending on weight)
- four frying

baskets

- fast and uniform cooking with hot circulating air and infrared heating
- the baskets are quick to fill and the rotating movement helps to get a steady cooking result
- automatic switching to warm keeping mode at the end of the cooking cycle
