

Range with oven Metos Diamante D74/10CEEPQ

The Metos Diamante 70 D74/10CEEPQ range has four 220 x 220 mm cooking zones. The cast iron 2.6 kW hobs can be adjusted between seven positions using the position control knobs. The control panel has an indicator light, which illuminates when the hob has been switched on. In addition, the hob has a hollow for over boiling, which prevents splashes from flowing to the edges of the unit, and a rear edge that is elevated, to prevent splashes from flowing behind the range. The range has a GN2/1 size 6 kW electric oven, the temperature of which can be regulated between 0...250 °C. The oven has three guide rails at intervals of 50 mm.

Every detail of the strong, stylish and hygienic restaurant range series Metos Diamante 70 has been planned as an efficient and functioning solution, from pre-treatment to the preparation of the food itself, without forgetting the need to easily clean the range. Diamante 70 series ranges are available as a table top model as well as with its own cupboard, as single or multiple combined units, and are suitable for use in small to mid-sized to large kitchens. Laser cut range working surfaces allow for the seamless joining together of units into cleanly connected islands or lines in places of heavy use, such as large kitchens.
